# Portland Gas Ltd

COMPANY PROFILE

# About Portland Gas

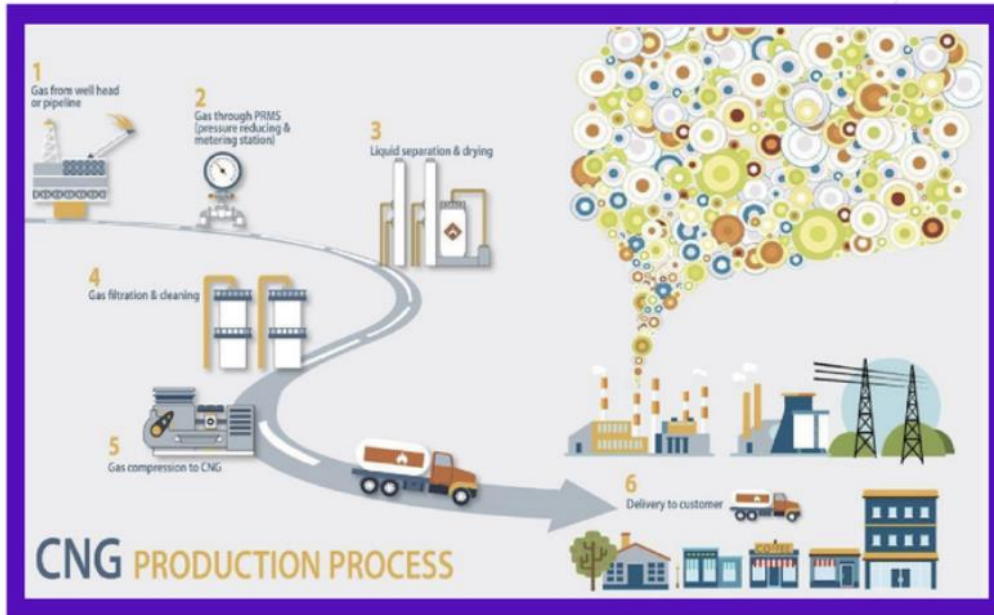

Portland Gas Limited is a pioneer in gas-to-market solutions, focusing on Nigeria's Compressed Natural Gas (CNG) sector.

PGL offers a comprehensive suite of services, including gas infrastructure deployment, auto conversion and refurbishment centers, and specialized training programs on CNG technology and implementation, EcoGreen CNG-powered generators, and handling the supply and logistics of special-purpose vehicles, CNG buses, conversion kits, as well as essential spare parts and equipment.

Through our OEM partnerships with Hubei Dunjia Special Vehicle Manufacturing Co., Ltd., and Pulita New Energy Co., Ltd., we are able to execute reliable supply logistics to ensure seamless integration, maintenance, and operational readiness.

# Production Process

This process involves various stages, from extracting natural gas to delivering CNG to end-users, ensuring a reliable and efficient supply of cleaner energy.

**1. Exploration and Extraction:** Natural gas is extracted from underground reserves.

**2. Processing:** The extracted gas is processed to remove impurities and separate liquids.

**3. Compression:** The processed gas is compressed to high pressures (up to 250 bar).

**4. Filling:** The compressed gas is filled into cylinders or vehicles.

**5. Distribution:** The filled cylinders or vehicles are transported to customers.

**6. Utilization:** The CNG is used as a cleaner and more efficient fuel for vehicles, reducing emissions and energy costs.

## MISSION

To be the driving force behind a world where energy solutions seamlessly blend innovation, sustainability, and convenience.

## VISION

To be the leading provider of innovative, affordable and sustainable energy solutions, empowering communities and businesses to make responsible energy choices that drive a cleaner and more efficient future.

## OUR COMMITMENT

Our commitment goes beyond providing energy solutions. We are dedicated to driving positive change, fostering economic growth, and leaving a lasting legacy of sustainability for generations to come. By choosing Portland Gas, you are not just choosing a service; you are choosing to be part of a movement towards a cleaner, greener, efficient and more responsible future

# Our Core Values

## INNOVATION

We believe that innovation is the key to a better future. We continuously seek new ways to harness energy efficiently and sustainably, pushing the boundaries of what's possible.

## SUSTAINABILITY

Our commitment to sustainability is unwavering. We're dedicated to reducing our carbon footprint, conserving resources, and empowering others to do the same.

## SAFETY

Safety is at the heart of everything we do. We prioritize the well-being of our employees, customers, and partners, implementing rigorous safety protocols in all our operations.

## CUSTOMER-CENTRIC

Our customers are at the center of our efforts. We listen, understand, and tailor our solutions to meet their unique needs, ensuring their satisfaction and success.

## COLLABORATION

We believe in the power of collaboration. By working together with our employees, partners, and stakeholders, we achieve more than we could alone.

# Our Products And Services

## **INFRASTRUCTURE DEPLOYMENT**

Engineering, Procurement & Construction projects, covering CNG Mother & Daughter stations, MRUs, and other gas infrastructure.

## **SUPPLY & LOGISTICS**

Supply CNG buses, Special-purpose vehicles, conversion kits, essential spare parts, and key equipment for integrity campaigns.

## **AUTO CONVERSION**

Seamless conversion at our state-of-the-art conversion centers at Kado, Kubwa, Utako, Ojota and Onne.

## **FRANCHISE**

PGL offers unique opportunities for partners to become stakeholders in the gas industry.

## **TRAINING AND CAPACITY BUILDING**

PGL delivers expert training programs on CNG technology and implementation.

## **CONSULTANCY**

Expert consultancy for gas projects, regulations, infrastructure, and energy transition.

## **ECO GREEN CNG GENERATORS**

PGL delivers CNG-powered generators and supports IPP projects for reliable, cleaner energy.

## **ELECTRIC VEHICLE CHARGING**

PGL provides electric vehicle charging solutions.

# Infrastructure Deployment

Portland Gas Limited is a specialized energy solutions company focused on the deployment of gas production and distribution infrastructure. We offer comprehensive services in the development of CNG and LNG mother/daughter stations, mobile refill units, and gas pipeline networks.

Our expertise ensures reliable, efficient, and safe delivery of natural gas to industrial, commercial, and remote locations, supporting the growing demand for cleaner and more accessible energy across Nigeria and beyond.

# Auto conversion centre

Portland Gas has established itself as a comprehensive transportation hub, offering a one-stop solution for all conversion needs.our workshops in Utako, Kado, Kubwa and Onne consist of a 15 man workforce each, enabling us to convert up to 20 vehicles daily. With an efficient conversion process that takes just 2 hours per car.

Portland Gas Limited offers high-quality CNG kits that are designed to meet the specific needs of various vehicle models. Their kits include advanced components like fuel injectors, cylinders, and electronic control units. The kits are installed by trained technicians to ensure safe and efficient conversion. Our partnership with NASENI and KIA enables the conversion centre to offer Naseni's cutting-edge CNG technology to our customers and KIA's Conversion services.

# Supply & Logistics

Portland Gas Limited provides the supply of special-purpose vehicles designed to meet a wide range of operational demands, including CNG-powered buses for public and private transportation, armored military vehicles for defence and security operations, and a range of key equipment and essential spare parts to support ongoing maintenance and logistics. Our solutions are built for durability, performance, and operational efficiency, serving both civilian and tactical sectors.

Over the years, we have successfully delivered supply and logistics services to a distinguished list of clients, including Julius Berger, PCNG-I, EFCC, NDIC, National Industrial Court, NDLEA, FERMA, Access Bank PLC, Taj Bank, TGI (Chi Group), Oyo State, Zamfara State, Lagos State Judiciary, Sahara Group, and various state governments such as Lagos, Oyo, Ogun, Rivers, Edo, and Nasarawa, among others.

### Bus Type

CNG 9.180 E5 | EV 9.200

CNG 11.260 E5 | EV 11.350

CNG 12.280 E5 | EV 12.350

CNG 13.280 E5

CNG 18.375 E5

### Layout (City configuration)

8.5 - 9.0 m | 80 passengers

10.5 m | 80 passengers

12.0 m | 100 passengers

12.8 m | 110 passengers

18.0 m | 160 passengers

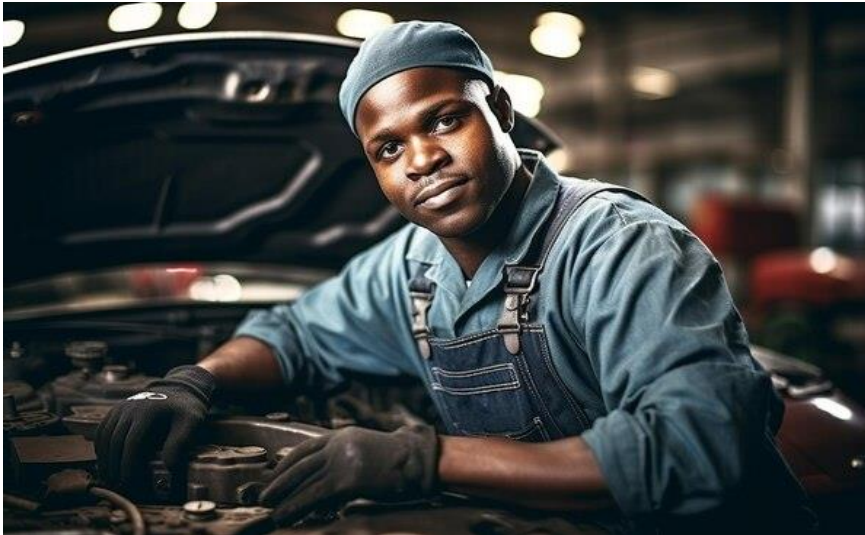

Full CNG kits for car  
4/6/8 cylinders

# Eco Green CNG Generators

Portland Gas Limited facilitates the deployment of CNG-powered generators to provide a reliable, clean, and cost-effective energy solution for a wide range of applications. Our generators are ideal for residential, commercial, industrial, and critical infrastructure operations, offering a sustainable alternative to traditional diesel or petrol systems.

We deliver reliable and efficient CNG supply for residential, commercial, and industrial use, supporting cleaner energy and cost-effective operations across Nigeria.

## CNG Auto Conversion Training

We offer specialized CNG Auto Retrofitting and Conversion Training Programs designed to equip technicians, engineers, and auto professionals with the skills required to convert petrol and diesel-powered vehicles to operate on Compressed Natural Gas (CNG).

These Training Programs are designed to build technical expertise in vehicle conversion, promote high safety and quality standards, support the national and global transition to cleaner, cost-effective transportation fuels, and generate employment within the growing CNG ecosystem.

# Electric Vehicle Charging

Electric Vehicle Charging Portland Gas Limited has expanded its services to include Electric Vehicle Charging (EVC) solutions, supporting the growing demand for sustainable transportation. Electric Vehicle Charging (EVC) service provides a comprehensive and convenient solution for electric vehicle owners. The company operates a transportation hub which includes EVC stations, offering fast and rapid charging options. Portland Gas Limited supports the adoption of electric vehicles, promotes sustainable energy solutions, and prioritizes the overall driving experience for its customers.

# Clean Energy

The adoption of cleaner energy and fuel solutions is of paramount importance for Nigeria's sustainable development. A transition to these alternatives is critical for mitigating the adverse effects of climate change through substantial reductions in greenhouse gas emissions

Economically, this shift promotes energy diversification and independence, reducing vulnerability to fluctuations in global fossil fuel markets while simultaneously stimulating green job creation and technological innovation.

Critically, expanding access to clean and reliable energy, particularly is essential for driving inclusive economic growth and enhancing the overall quality of life for all Nigerians. Therefore, the strategic embrace of cleaner energy represents a vital investment in Nigeria's environmental, economic, and social prosperity.

# Message from the President

President Bola Ahmed Tinubu's (GCFR) commitment to ensure energy security, drive utility and economic growth with public-private partnerships was exemplified in his speech at the commissioning of the NASENI-PORTLAND facility on the 30th May 2024 where he said:

"This nation will not progress forward if we continue to dance on the same spot. We have the will to drive the implementation of CNG adoption across the country, and we must set the example as public officials in leading the way to that prosperous future that we are working to achieve for our people. It starts with us, and in seeing that we are serious, Nigerians will follow our lead"

This authorization shall be valid from April 18th, 2025 to April 18th, 2026.  
 Renewal requires a separate agreement.

**3. Rights & Obligations**

**3.1 Party A's Responsibilities:**

- Provide Party B with necessary product information, technical support, and marketing materials.
- Ensure the legality and quality of supplied vehicles.

**3.2 Party B's Responsibilities:**

- Actively promote and sell Dunjia Brand Armor vehicles in Nigeria;
- Comply with Party A's sales policies and pricing guidelines;
- Not distribute competing products without Party A's written consent.

**4. Intellectual Property**

- Party B may use Party A's trademarks only for authorized sales activities;
- Unauthorized modifications or sub-licensing are prohibited.

**5. Termination & Breach**

- Either party may terminate this agreement with 30 days' written notice for material breach;
- Breaching party shall compensate for losses incurred.

**6. Governing Law & Dispute Resolution**

## Portland Gas Secures Licence for CNG Conversion Centre from OGFZA

**Newsdesk** - Portland Gas, a subsidiary of the OGC, has secured a licence from the Oil & Gas Regulatory Commission (OGRC) to establish a CNG conversion centre in the free zone of the OGC Free Zone, Lagos. The licence, which is valid for five years, allows the company to convert existing petrol and diesel vehicles to CNG. The OGC CEO, Mohammed, said the licence is a significant milestone for the company and the country's energy sector. He noted that the licence is a testament to the company's commitment to sustainable energy and its role in driving economic growth. The OGC has been working to promote CNG as a cleaner and more affordable alternative to petrol and diesel. The company has already converted several vehicles and is planning to expand its operations. The OGC is also investing in research and development to improve the efficiency and safety of CNG conversion. The OGC is committed to providing high-quality services to its customers and ensuring the safety and reliability of its operations. The OGC is also committed to environmental sustainability and reducing its carbon footprint. The OGC is a leading provider of energy solutions in Nigeria and is committed to providing high-quality services to its customers. The OGC is also committed to environmental sustainability and reducing its carbon footprint. The OGC is a leading provider of energy solutions in Nigeria and is committed to providing high-quality services to its customers. The OGC is also committed to environmental sustainability and reducing its carbon footprint.

## FAO: Despite Rising Food Production, Global Hunger Remains Persistent

The Food and Agriculture Organization (FAO) has reported that despite a record increase in global food production, the number of people suffering from hunger remains high. The FAO said that in 2023, the number of people who were undernourished rose to 735 million, up from 717 million in 2022. The FAO said that the increase in hunger is due to a combination of factors, including the impact of the COVID-19 pandemic, the war in Ukraine, and the effects of climate change. The FAO said that the world is not producing enough food to feed the growing population, and that the distribution of food is uneven. The FAO is calling for more investment in agriculture and for better access to markets and services for small-scale farmers. The FAO is also calling for more action to address the root causes of hunger, such as poverty and inequality. The FAO is committed to ending hunger and achieving food security for all by 2030.
